## Students welcome “Education Revolution”

Michael Nguyen, National Union of Students, National President said, “Its good to see the Australian Labor Party prioritising education as an important area of microeconomic reform.”

Mr Nguyen went on to say, “the National Union of Students supports the ALP’s pledge to increase funding to the sector and awaits to see the details of the policy.”

“The ALP paper should function as a clarion call for the Federal Education Minister to open up a dialogue with the Australian public and the sector about the future of Australian education,” said Mr Nguyen.
